ISBN-13: 978-1-84024 -568-4

Publisher: Summersdale Ltd

'A survival guide for women who aren't hanging around waiting to be rescued by some Knight in Shining Armani. With witty anecdotes and pithy observations, Imogen Lloyd Webber gives top tips on how a girl can stand on her own two stilettos.' **Kathy Lette**

'Imogen Lloyd Webber goes where men are too scared to contemplate and women seldom honest enough or outrageous enough to think aloud. Her book is cheeky, irreverent and above all funny' **Geordie Greig, Editor, Tatler**

'Imogen's first book is a gem for women of all ages, and men can learn a thing or two too! This book is an education, it's a laugh a minute, pick it up when you're down and you'll be smiling in no time. What a tonic!' **Cilla Black**

'The dark lonely nights as a singleton seemed to fly by thanks to Imogen's fantastic book! It made me laugh out loud! I'm now going to embrace being single and enjoy the journey. Thank you!' **Denise Van Outen**

You've laughed and cried along with Bridget Jones and *Sex And The City's* Carrie Bradshaw; now meet their real-life counterpart in Imogen. *The Single Girl's Guide* is a tongue-in-cheek but practical manual on life management for all those who have yet to kiss their elusive Mr Darcy or Big, and are still fending off the odd frog...

Make the most of unattached 21st century living with free spirit Imogen as your guide, revealing amusing anecdotes and advice on how to manage bosses, friends, family... and distractions of the male variety, including the perils of modern communication when dating. Help keep the stresses and strains of singledom at bay and perfect the art of getting others to do things your way, without them realising that you're their SatNav.

Imogen Lloyd Webber is a writer and producer from London who is living and loving the single girl's life. Aged 30, she's almost had as many bosses as boyfriends, and has survived multiple mistakes involving mobile phones and men. For more information visit www.singlegirlsguideonline.com
