*"I never realised Kizzy would help me but she did. I used to be terribly bullied every day of school and was called a 'loner'. I would come home to be greeted by a polite meow and she would perch on my legs for a cuddle as I went on the computer to relax. She was like the friend I never had."*

From Oscar, the care-home cat who predicts when residents are about to pass on and then comforts them in their final hours, to Scarlett, the brave mother that went into a burning building five times to rescue her kittens, **Wonder Cats: True Stories of Extraordinary Felines** will amaze animal fans everywhere. This new book contains heart-warming and moving tales that demonstrate the astonishing powers of remarkable felines.

**Whether they're using up one of their nine lives to make a lucky escape or demonstrating unusual talents, cats are full of surprises.**
